

Finally, a RELIABLE Pond Pump!

Munro POND Pumps

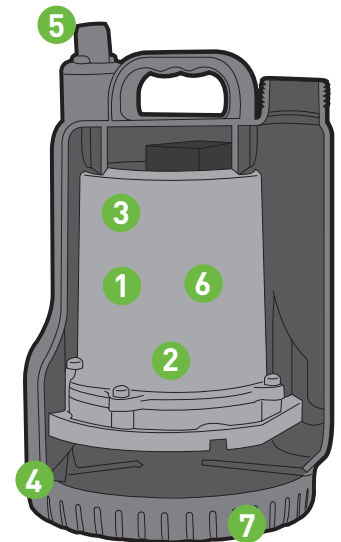

1/7 HP - 1/3 HP

- **TRUE CONTINUOUS DUTY DESIGN**
Intelligent design flows water across the motor housing to whisk away the heat. Cool motor = longer life.
- **LOW COST TO OPERATE**
Lower amps and higher flows, saves power and money.
- **FAILURE RATE UNDER 1%**
Superior design and high-quality components make this pump last, even in continuous duty. A mechanical shaft seal protects the super-efficient motor.

- 1 LONG-LIFE MOTOR**
Does not need to be fully submersed and includes a temperature switch, which will auto-shutdown to avoid overheating if it runs dry.
- 2 OPEN VORTEX IMPELLER**
Hard to clog, increases efficiency and provides high flow levels.
- 3 MOTOR HOUSING**
Stainless steel housing (1/3 Hp model).
- 4 AAS PLASTIC CASE**
Non-corrosive shell and strainer.

- 5 MULTIPLE OUTLET STYLES**
NPT and garden hose styles included in multiple sizes.
- 6 MECHANICAL SHAFT SEAL**
Self-lubricating carbon ceramic seal provides maximum motor protection for a long life.
- 7 WEEP HOLE**
Air is dispelled from the case to avoid air locking.
