

# Munro Complete PRO II

## The **New Way** to Install Irrigation Pumps

### A Better, COMPLETE Solution

Irrigation contractors can take days gathering components to install a centrifugal irrigation pump. There's room for errors, leaks, and even safety violations.

Munro made it easy. We've taken all of the pieces and parts and put them together in one complete package.

### How Easy is It?

Cut installation time dramatically! Go from 1/2 a day to an hour or less. Watch the video to see for yourself.

**ENCLOSURE** – Powder-coated stainless steel offers durable, non-corrosive housing to stand up to the elements.

**PUMP CONTROL** – Choose from the full range of Munro pump controls, including StartBoxes, SmartBoxes, and BrainBoxes, housed in their own NEMA 3R enclosures and including features such as reduced amperage and thermal protection.

**UNIVERSAL DESIGN** – Interchangeable side panels allow for pump to face left or right.

**PUMP** – Our LP Series centrifugal pumps are durable and long lasting with industry-leading performance to horsepower. Offered in 3/4 - 3 hp, all sizes come with top-of-the-line components that are only available as costly upgrades on other pumps.

**HANDLE** – Stainless steel handle for easy accessibility.

**SECURITY** – Lockable.

**SELF COOLING** – Vented for air flow to keep the pump cool.

**FITTINGS AND ACCESSORIES** – From our one-of-a-kind Munster fitting to the long-lasting hose and electrical components included, the Munro Complete PRO II is complete with everything you need.

**DISCHARGE** – Discharge holes are knock-outs for easy installation.
