

The New Way to Install Irrigation Pumps

A Better, COMPLETE Solution With or without enclosure

This rugged, complete pump system (UL QCZJ) simplifies installation and can be customized for your application. The skid-only version is perfect for indoor installations, while the powder-coated marine grade aluminum enclosure will stand up to outdoor elements

Did You Know?

Munro offers a variety of adapters to link a grooved coupling to your irrigation system. For steel pipe, groove x weld or groove x thread are great options. For PVC systems, grooved x spigot, groove x thread and other PVC adapters are available.

PUMP CONTROL – Choose from the full range of Munro pump controls, including StartBoxes, SmartBoxes, and BrainBoxes, housed in their own NEMA 3R enclosures and including features such as reduced amperage and thermal protection.

ENCLOSURE OR SKID – Powder-coated marine-grade aluminum offers durable housing or base to stand up to the elements. Made to order.

SECURITY – Lockable.

FITTINGS AND ACCESSORIES – From our rugged pipe and grooved couplings to the long-lasting electrical components included, the Munro Complete PRO II is complete with everything you need.

PUMP – Our LP Series 5 hp centrifugal pumps are durable and long lasting with industry-leading performance to horsepower.

SELF COOLING – Vented for air flow to keep the pump cool.

The COMPLETE Solution for a Professional Pump Installation

Easiest to select & specify – One professional package includes pump, smart controls and enclosure.

Trouble-free components – High quality materials for a clean, durable installation to be proud of.

Hassle-free installation – Comes complete. No parts to forget, no need for shortcuts. No fuss, no errors.
