

MUNRO LP3005B Pump

LP3005B

5HP, 208/230V, 1Ph, 27A, 170lbs.

Brass Impeller - Durable and low maintenance with the longest life in its class

- **Silica Carbide Seal** - proven toughness stands up to less than ideal situations
- **Heavy Duty Motor** - Lasts longer and provides application flexibility

COMMON APPLICATIONS

- **Residential turf Irrigation** - Residential, community or commercial turf irrigation
- **High-Pressure Booster**
- **Water Transfer**

ADVANTAGES

- **Durable and Long Lasting** - Our cast iron construction and brass impeller mean that our self-priming pumps are built to stand the test of time, even in more unusual or difficult environments.
- **Industry Leading Performance to Horsepower** - The proof is in our curves. Compared to other 5 hp pumps, the Munro LP 3005 has much stronger performance. With high starting torque and an efficient run cycle, our pumps truly lead the pack.
- **Easy to install and maintain** - With two priming ports and a durable steel base plate, installing a Munro LP 3005 is a snap. When it is time to maintain or winterize the pump, you'll love our two drain valves. A stainless steel wear ring reduces oxidation and friction, minimizing wear and repairs. If you have to service the pump, stainless steel bolts and a dry-socket design provide easy access
