

PLEASE NOTE: This document does not address Munro Pump Stations. Munro Pump Station warranty claims are handled through our National Service Manager, Mark Williams: 970-270-0400 or mwilliams@munropump.com.

WARRANTY TERMS

Munro's warranty term is twelve (12) months from date of installation or (18) eighteen months from date of shipment, whichever occurs first. The warranty covers defects in materials and workmanship under normal use and service when properly connected for a period of 12 months or 1000 hours of operation, whichever occurs first. In the event of a failure due to manufacturing defect during the warranty period, Munro reserves the right to repair or replace the product at our discretion. Our complete warranty terms and conditions are available at: www.munropump.com/MunroCompanies/media/Resources/Munro-warranty-statement.pdf

WARRANTY PROCESS

1. Contacting Munro – The warranty process begins when the distributor contacts Munro. Munro is not able to offer warranty reimbursements directly to end-users. Please contact Munro Customer Support at 1-800-942-4270 or technicalsupport@munropump.com
2. Determining eligibility – The Munro team will speak with the distributor to collect information about the product to determine eligibility for warranty (ex: Serial Number, Invoice # and date).
3. Troubleshooting – The Munro team will attempt to remotely troubleshoot the product and attempt to determine the cause of the issue, then validate if the product is eligible for warranty.
4. Return, local repair or destroy – If it is determined that the product may be eligible for warranty, Munro will provide direction on next steps:
 - a. Return – Munro will issue an RMA to the distributor and request that the product be sent to Munro to evaluate further to determine eligibility for warranty. Product must be sent back within 10 business days.
 - b. Local repair – Munro will issue an RMA to the distributor and will work with the distributor to determine the best local resource to evaluate the product. Product must be taken to local repair facility within 10 business days.
 - c. Destroy – In some cases, Munro will issue an RMA to the distributor and request that the distributor destroy the product so that Munro can provide a credit or replacement product.
5. Shipping – After an RMA is issued, Munro will issue a call tag to pick up the product. If the product is warranteed, the Company will cover all freight costs. If the product is deemed ineligible for warrantee, Munro will charge the distributor for the shipping both to our factory or nearest service facility and back to the distributor. Munro's Packaging Guidelines must be adhered to. Packaging and shipping guidelines are available at: www.munropump.com/MunroCompanies/media/About-us-images/Munro-Packaging-Guidelines.pdf

Shipping Address:
955 3rd Ave.
Grand Junction, CO 81501
6. Determination – After evaluation of the product by the Munro team or the approved outside service center is completed and the product is found to be eligible for warranty, the product will be repaired or replaced at our discretion and returned to the distributor at our expense. If the product is not eligible for warranty, we will offer the distributor the option of returning the product as-is or Munro repairing the product at the distributor's cost; or Munro destroying the product at no charge.

Please contact us with any questions about these procedures or any other Munro procedures, at 1-800-942-4270 or technicalsupport@munropump.com.
